Global Access @dvantage Gives You Your Time Back

Whatever your business aims, we'd guess that it isn't to spend more time crunching numbers. Think about the time you've spent in the last year reconciling transactions, resolving queries or trying to track down unexpected figures. Wouldn't you rather have been doing something else?

So, allow us to introduce a business tool that can reduce a couple of hours reconciliation into a couple of minutes mouse-clicking; a tool that's simple enough to save you time, yet powerful enough to give you more control of your business than ever before.

Introducing Global Access @dvantage

We understood that you needed a management information application that was quick and easy, so we created Global Access @dvantage. Takings Reconciliation By Mouse Power

Daily chores like reconciling your takings will take a fraction of the time they used to. Now you can pull up a report in seconds and scan your totals at a glance. If all looks as you expect, then that's the job done. But if there's a discrepancy, just a few clicks are all that's needed to drill down and answer your questions.
