

Streamline your lunchtime.

SOFTWARE MODULES

WebSMARTT Point of Sale (POS) offers simple, user-friendly screens to facilitate completing meal transactions in a matter of seconds. It automatically captures all required data for reimbursement reporting and accountability. Integrated modules offer valuable information to take the guesswork out of lunchroom management.

.....

WebSMARTT Free & Reduced Application Processing software provides fast, simple and accurate processing that fully integrates with WebSMARTT POS. Track and record all meal transactions for efficient reimbursement and revenue reporting.

.....

WebSMARTT Menu Planning & Production provides an easy-to-use drag and drop interface that lets you create food-based menu plans that can easily be distributed. Scale recipes and calculate precise order requirements based on forecasted servings. The automated production management increases accuracy and reduces waste. Menu plan forecasts are automatically generated based on historic participation data.

.....

WebSMARTT Ordering & Inventory is a comprehensive management tool that keeps food costs down, reduces shortages/overstocks and automatically generates forecasts to make smart decisions. WebSMARTT Ordering & Inventory is fully integrated with the Menu Planning & Production and POS modules.
