

## Powerful Software That Works For You

When it comes to efficient cafeteria operations, MCS lightens your workload with a robust system that ties everything in your program together.

### All-In-One

Our complete, feature-rich software system gives you the tools to manage your front and back of the house operations with optimal efficiency.

### Financial Management

MCS administrative and financial reports provide you with the data you need for complete financial insight and management of your program.

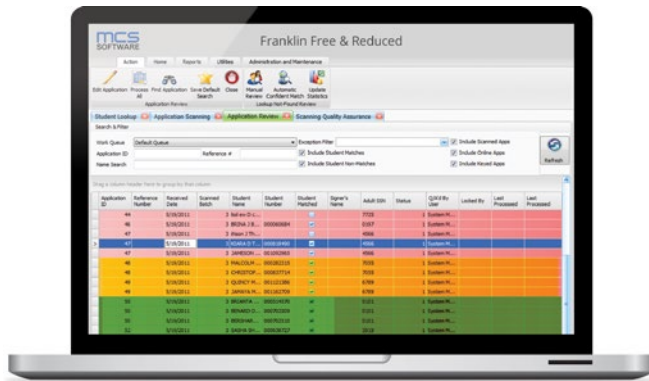

### Robust Reporting

With a built-in custom report designer, you'll be able to generate the exact reports you need, right when you need them.

### Intuitive & User-Friendly

Each module is smartly designed to guide users through the software with ease so you can work faster and reduce labor hours.

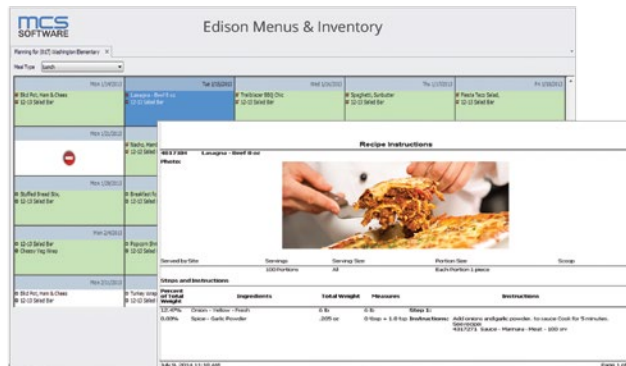

## Franklin Free & Reduced

Our user-friendly Franklin software accurately processes handwritten applications. With complete integration and comprehensive reporting, Franklin will simplify your entire application process.

## Newton Point of Sale

Speed up your serving lines, keep your records accurate, and get the reports you need. Newton is your full-featured, highly flexible POS solution from the lunchroom to the central office.

## Edison Menus & Inventory

From bid to tray, Edison completely integrates bid management, menu planning, inventory control, and dietary guidelines. It's the back of the house solution that should be front of mind.
